| ACCREDITED SINCE : | 19 MARCH 2025 |
| FIELD(S) OF MEDICAL TESTING: | CHEMICAL PATHOLOGY |
| | HAEMATOLOGY |
| | MEDICAL MICROBIOLOGY |

The standard used for assessment of this laboratory is MS ISO 15189:2022 (ISO 15189:2022, IDT).

A medical laboratory's fulfilment of the requirements of ISO 15189 means the laboratory meets both the technical competence requirements and the management system requirements necessary for it to consistently deliver technically valid test results. The management system requirements in ISO 15189 are written in language relevant to a medical laboratory's operations. Medical laboratories that implement ISO 15189 operate generally in accordance with the principles of ISO 9001. (See Joint IAF-ILAC-ISO Communiquè, November 2021)
